

STANDARD RESIDENTIAL INSPECTION AGREEMENT

THIS IS INTENDED TO BE A LEGALLY BINDING CONTRACT, PLEASE READ IT CAREFULLY

Client: _____ Report #: _____

Address: _____

SCOPE OF THE INSPECTION: The real estate inspection to be performed for Client is a survey and basic operation of the systems and components of a building which can be reached, entered, or viewed without difficulty, moving obstructions, or requiring any action which may result in damage to the property or personal injury to the Inspector. The purpose of the inspection is to provide the Client with information regarding the general condition of the building(s).

Inspector will prepare and provide Client a written report for the sole use and benefit of Client. The written report shall document any material defects discovered in the building's systems and components which, in the opinion of the Inspector, are safety hazards, are not functioning properly, or appear to be at the ends of their service lives.

The inspection shall be performed in accordance with the Standards of Practice of the California Real Estate Inspection Association (CREIA), attached hereto and incorporated herein by reference, and is limited to those items specified herein.

CLIENT'S DUTY: Client agrees to read the entire written report when it is received and promptly call Inspector with any questions or concerns regarding the inspection or the written report. The written report shall be the final and exclusive findings of Inspector.

Client acknowledges that Inspector is a generalist and that further investigation of a reported condition by an appropriate specialist may provide additional information which can affect Client's purchase decision. Client agrees to obtain further evaluation of reported conditions before removing any investigation contingency and prior to the close of the transaction.

In the event Client becomes aware of a reportable condition which was not reported by Inspector, Client agrees to promptly notify Inspector and allow Inspector and/or Inspector's designated representative(s) to inspect said condition(s) prior to making any repair, alteration, or replacement. Client agrees that any failure to so notify Inspector and allow inspection is a material breach of this Agreement.

ENVIRONMENTAL CONDITIONS: Client agrees what is being contracted for is a building inspection and not an environmental evaluation. The inspection is not intended to detect, identify, or disclose any health or environmental conditions regarding this building or property, including, but not limited to: the presence of asbestos, radon, lead, urea-formaldehyde, fungi, molds, mildew, feces, urine, PCBs, Chinese drywall, vermin or pests or other toxic, reactive, combustible, or corrosive contaminants, materials, or substances in the water, air, soil, or building materials. The Inspector is not liable for injury, health risks, or damage caused or contributed to by these conditions.

GENERAL PROVISIONS: The written report is not a substitute for any transferor's or agent's disclosure that may be required by law, or a substitute for Client's independent duty to reasonably evaluate the property prior to the close of the transaction. This inspection Agreement, the real estate inspection, and the written report do not constitute a home warranty, guarantee, or insurance policy of any kind whatsoever.

No legal action or proceeding of any kind, including those sounding in tort or contract, can be commenced against Inspector/Inspection Company or its officers, agents, or employees

more than one year from the date Client discovers, or through the exercise of reasonable diligence should have discovered, the cause of action. In no event shall the time for commencement of a legal action or proceeding exceed two years from the date of the subject inspection. **THIS TIME PERIOD IS SHORTER THAN OTHERWISE PROVIDED BY LAW.**

This Agreement shall be binding upon and inure to the benefit of the parties hereto and their heirs, successors, and assigns.

This Agreement constitutes the entire integrated agreement between the parties hereto pertaining to the subject matter hereof and may be modified only by a written agreement signed by all of the parties hereto. No oral agreements, understandings, or representations shall change, modify, or amend any part of this Agreement.

Each party signing this Agreement warrants and represents that he/she has the full capacity and authority to execute this Agreement on behalf of the named party. If this Agreement is executed on behalf of Client by any third party, the person executing this Agreement expressly represents to Inspector that he/she has the full and complete authority to execute this Agreement on Client's behalf and to fully and completely bind Client to all of the terms, conditions, limitations, exceptions, and exclusions of this Agreement.

SEVERABILITY: Should any provision of this Agreement be held by a court of competent jurisdiction to be either invalid or unenforceable, the remaining provisions of this Agreement shall remain in full force and effect, unimpaired by the court's holding.

MEDIATION: The parties to this Agreement agree to attend, in good faith, mediation with a retired judge or lawyer with at least 5 years of mediation experience before any lawsuit is led. All notices of mediation must be served in writing by return receipt requested allowing 30 days for response. If no response is forthcoming the moving party may then demand binding arbitration under the terms and provisions set forth below.

ARBITRATION: Any dispute concerning the interpretation or enforcement of this Agreement, the inspection, the inspection report, or any other dispute arising out of this relationship, shall be resolved between the parties by binding arbitration conducted in accordance with California Law and the Federal Arbitration Act, except that the parties shall select an arbitrator who is familiar with the real estate profession. The parties agree that they shall be entitled to discovery procedures within the discretion of the arbitrator. The arbitrator shall manage and hear the case applying the laws of the State of California to all issues submitted in the arbitration proceeding. The award of the arbitrator shall be final, and a judgment may be entered on it by any court having jurisdiction. Any disputes are to be arbitrated by:

Construction Dispute Resolution Services, LLC, Resolute Systems, or other comparable entity:

Client acknowledges having read and understood all the terms, conditions, and limitations of this Agreement and voluntarily agrees to be bound thereby and to pay the fee listed herein.

RESIDENTIAL STANDARDS OF PRACTICE – FOUR OR FEWER UNITS

Part I. Definitions and Scope

These Standards of Practice provide guidelines for a real estate inspection and define certain terms relating to these inspections. Italicized words in these Standards are defined in Part IV, Glossary of Terms.

- A. A *real estate inspection* is a survey and basic operation of the systems and components of a building which can be reached, entered, or viewed without difficulty, moving obstructions, or requiring any action which may result in damage to the property or personal injury to the Inspector. The purpose of the inspection is to provide the Client with information regarding the general condition of the building(s). Cosmetic and aesthetic conditions shall not be considered.
- B. A *real estate inspection* report provides written documentation of material defects discovered in the inspected building's systems and components which, in the opinion of the Inspector, are safety hazards, are not functioning properly, or appear to be at the ends of their service lives. The report may include the Inspector's recommendations for correction or further evaluation.
- C. *Inspections* performed in accordance with these Standards of Practice are not technically exhaustive and shall apply to the primary building and its associated primary parking structure.

Part II. Standards of Practice

A *real estate inspection* includes the *readily accessible systems and components* or a *representative number* of multiple similar *components* listed in Sections 1 through 9 subject to the limitations, exceptions, and exclusions in Part III.

SECTION 1 – Foundation, Basement, and Under-floor Areas

- A. Items to be *inspected*:
 1. Foundation *system*
 2. Floor framing *system*
 3. Under-floor ventilation
 4. Foundation anchoring and cripple wall bracing
 5. Wood separation from soil
 6. Insulation
- B. The *Inspector* is not required to:
 1. *Determine* size, spacing, location, or adequacy of foundation bolting/bracing *components* or reinforcing *systems*
 2. Determine the composition or energy rating of insulation materials

SECTION 2 – Exterior

- A. Items to be *inspected*:
 1. Surface grade directly adjacent to the buildings
 2. Doors and windows
 3. Attached decks, porches, patios, balconies, stairways, and their enclosures, handrails, and guardrails
 4. Wall cladding and trim
 5. Portions of walkways and driveways that are adjacent to the buildings
 6. Pool or spa drowning prevention features, for the sole purpose of identifying which, if any, are present
- B. The *Inspector* is not required to:
 1. *Inspect* door or window screens, shutters, awnings, or security bars
 2. *Inspect* fences or gates or operate automated door or gate openers or their safety devices
 3. Use a ladder to *inspect systems* or *components*
 4. Determine if any manufacturers' design standards or testing is met or if any drowning prevention safety feature of a pool or spa is installed properly or is adequate or effective. Test or operate any drowning prevention safety feature.

SECTION 3 – Roof Covering

- A. Items to be *inspected*:
 1. Covering
 2. Drainage
 3. Flashings
 4. Penetrations
 5. Skylights

- B. The *Inspector* is not required to:
 1. Walk on the roof surface if in the opinion of the *Inspector* there is risk of damage or a *hazard* to the *Inspector*
 2. Warrant or certify that roof systems, coverings, or *components* are free from leakage

SECTION 4 – Attic Areas and Roof Framing

- A. Items to be *inspected*:
 1. Framing
 2. Ventilation
 3. Insulation
- B. The *Inspector* is not required to:
 1. *Inspect* mechanical attic ventilation systems or components
 2. *Determine* the composition or energy rating of insulation materials

SECTION 5 – Plumbing

- A. Items to be *inspected*:
 1. Water supply piping
 2. Drain, waste, and vent piping
 3. Faucets and *fixtures*
 4. Fuel gas piping
 5. Water heaters
 6. *Functional* flow and *functional* drainage
- B. The *Inspector* is not required to:
 1. Fill any *fixture* with water, inspect over flow drains or drain-stops, or evaluate back flow *devices* or drain line clean outs
 2. *Inspect* or evaluate water temperature balancing devices, temperature fluctuation, time to obtain hot water, water circulation, or solar heating *systems* or *components*
 3. *Inspect* whirlpool baths, steam showers, or sauna systems or *components*
 4. *Inspect* fuel tanks or determine if the fuel gas *system* is free of leaks
 5. *Inspect* wells or water treatment *systems*

SECTION 6 – Electrical

- A. Items to be *inspected*:
 1. Service equipment
 2. Electrical panels
 3. Circuit wiring
 4. Switches, receptacles, outlets, and lighting fixtures
- B. The *Inspector* is not required to:
 1. Operate circuit breakers or circuit interrupters
 2. Remove cover plates
 3. *Inspect* de-icing systems or components
 4. *Inspect* private or emergency electrical supply systems or components

SECTION 7 – Heating and Cooling

- A. Items to be *inspected*:
 1. Heating equipment
 2. Central cooling equipment
 3. Energy source and connections
 4. Combustion air and exhaust vent *systems*
 5. Condensate drainage
 6. Conditioned air distribution *systems*
- B. The *Inspector* is not required to:
 1. *Inspect* heat exchangers or electric heating elements
 2. *Inspect* non-central air conditioning units or evaporative coolers
 3. *Inspect* radiant, solar, hydronic, or geothermal systems or *components*
 4. *Determine* volume, uniformity, temperature, air flow, balance, or leakage of any air distribution *system*
 5. *Inspect* electronic air filtering or humidity control *systems* or *components*

SECTION 8 – Fireplaces and Chimneys

A. Items to be *inspected*:

1. Chimney exterior
2. Spark arrestor
3. Firebox
4. Damper
5. Hearth extension

B. The *Inspector* is not required to:

1. *Inspect* chimney interiors
2. *Inspect* replace inserts, seals, or gaskets
3. *Operate* any replace or *determine* if a replace can be safely used

SECTION 9 – Building Interior

A. Items to be *inspected*:

1. Walls, ceilings, and floors
2. Doors and windows
3. Stairways, handrails, and guardrails
4. *Permanently installed* cabinets
5. *Permanently installed* cook-tops, mechanical range vents, ovens, dishwashers, and food waste disposals
6. Absence of smoke and carbon monoxide alarms
7. Vehicle doors and openers

B. The *Inspector* is not required to:

1. *Inspect* window, door, or floor coverings
2. *Determine* whether a building is secure from unauthorized entry
3. *Operate*, test, or *determine* the type of smoke or carbon monoxide alarms or test vehicle door safety devices
4. Use a ladder to *inspect systems* or *components*

Part III. Limitations, Exceptions, and Exclusions

A. The following are excluded from a real estate inspection:

1. *Systems* or *components* of a building, or portions thereof, which are not *readily accessible*, not *permanently installed*, or not *inspected* due to circumstances beyond the control of the *Inspector* or which the Client has agreed or specified are not to be inspected
2. Site improvements or amenities, including, but not limited to; accessory *buildings*, fences, planters, landscaping, irrigation, swimming pools, spas, ponds, waterfalls, fountains or their *components* or accessories
3. Auxiliary features of *appliances* beyond the *appliance's* basic *function*
4. *Systems* or *components*, or portions thereof, which are under ground, under water, or where the *Inspector* must come into contact with water
5. Common areas as defined in California Civil Code section 1351, et seq., and any dwelling unit *systems* or *components* located in common areas
6. *Determining* compliance with manufacturers' installation guidelines or specifications, *building* codes, accessibility standards, conservation or energy standards, regulations, ordinances, covenants, or other restrictions
7. *Determining* adequacy, efficiency, suitability, quality, age, or remaining life of any *building*, *system*, or *component*, or marketability or advisability of purchase
8. Structural, architectural, geological, environmental, hydrological, land surveying, or soils- related examinations
9. Acoustical or other nuisance characteristics of any *system* or *component* of a *building*, complex, adjoining property, or neighborhood
10. Conditions related to animals, insects, or other organisms, including fungus and mold, and any hazardous, illegal, or controlled substance, or the damage or health risks arising there from
11. Risks associated with events or conditions of nature including, but not limited to; geological, seismic, wild fire, and flood
12. Water testing any *building*, *system*, or *component* or *determine* leakage in shower pans, pools, spas, or any body of water
13. *Determining* the integrity of hermetic seals at multi-pane glazing
14. Differentiating between original construction or subsequent additions or
15. Reviewing information from any third-party, including but not limited to: product defects, recalls, or similar notices

16. Specifying repairs/replacement procedures or estimating cost to correct
17. Communication, computer, security, or low-voltage systems and remote, timer, sensor, or similarly controlled *systems* or *components*
18. Fire extinguishing and suppression *systems* and *components* or *determining* fire resistive qualities of materials or assemblies
19. Elevators, lifts, and dumbwaiters
20. Lighting pilot lights or activating or *operating* any *system*, *component*, or *appliance* that is *shut down*, unsafe to *operate*, or does not respond to *normal user controls*
21. *Operating* shutoff valves or shutting down any *system* or *component*
22. Dismantling any *system*, structure, or *component* or removing access panels other than those provided for homeowner maintenance

B. The *Inspector* may, at his or her discretion:

1. *Inspect* any *building*, *system*, *component*, *appliance*, or improvement not included or otherwise excluded by these Standards of Practice. Any such inspection shall comply with all other provisions of these Standards.
2. Include photographs in the written report or take photographs for *Inspector's* reference without inclusion in the written report. Photographs may not be used in lieu of written documentation.

Part IV. Glossary of Terms

*Note: All definitions apply to derivatives of these terms when italicized in the text.

Appliance: An item such as an oven, dishwasher, heater, etc. which performs a specific *function*

Building: The subject of the *inspection* and its *primary parking structure*

Component: A part of a *system*, *appliance*, *fixture*, or *device*

Condition: Conspicuous state of being

Determine: Arrive at an opinion or conclusion pursuant to a *real estate inspection*

Device: A *component* designed to perform a particular task or *function*

Fixture: A plumbing or electrical *component* with a fixed position and function

Function: The normal and characteristic purpose or action of a *system*, *component*, or *device*

Functional Drainage: The ability to empty a plumbing fixture in a reasonable time

Functional Flow: The flow of the water supply at the highest and farthest fixture from the *building* supply shutoff valve when another fixture is used simultaneously

Inspect: Refer to Part I, "Definition and Scope," Paragraph A

Inspector: One who performs a *real estate inspection*

Normal User Control: Switch or other *device* that activates a *system* or *component* and is provided for use by an occupant of a *building*

Operate: Cause a *system*, *appliance*, *fixture*, or *device* to *function* using *normal user controls*

Permanently Installed: Fixed in place, e.g. screwed, bolted, nailed, or glued

Primary Building: A *building* that an *Inspector* has agreed to inspect

Primary Parking Structure: A *building* for the purpose of vehicle storage associated with the *primary building*

Readily Accessible: Can be reached, entered, or viewed without difficulty, moving obstructions, or requiring any action which may harm persons or property

Real Estate Inspection: Refer to Part I, "Definitions and Scope," Paragraph A

Representative Number: Example, an average of one component per area for multiple similar components such as windows, doors, and electrical outlets

Safety Hazard: A *condition* that could result in significant physical injury

Shut Down: Disconnected or turned off in a way so as not to respond to *normal user controls*

System: An assemblage of various components designed to function as a whole

Technically Exhaustive: Examination beyond the scope of a *real estate inspection*, which may require disassembly, specialized knowledge, special equipment, measuring, calculating, quantifying, testing, exploratory probing, research, or analysis
